

# THE GENTLEMEN'S FUND

## ASHTON KUTCHER FOR DNA

Freedom is a fundamental human right, and yet more people are enslaved today than ever before. To combat this issue, **The Gentlemen's Fund initiative** and **Ashton Kutcher** are supporting the efforts of **DNA—The Demi and Ashton Foundation**—to eliminate child sex slavery by raising awareness about this horrific problem and developing innovative and effective programs to address demand. More than one million women and children are trafficked across international borders every year, and in the U.S. alone it is estimated that thousands of children are enslaved and sold for sex. The DNA Foundation seeks to protect the freedom of the world's most vulnerable citizens by forcing sex slavery out of the shadows and into the spotlight.
