

THE GENTLEMEN'S FUND

DAVID ARQUETTE ON HUNGER

Food is a necessity, not an option, and yet one in six Americans struggles with hunger—a dramatic 36 percent increase over last year. **The Gentlemen's Fund initiative, Snickers®**, and **David Arquette** are joining forces with Feeding America, the nation's leading domestic hunger-relief charity, because they believe every man, woman, and child should have enough to eat. Through a nationwide network of member food banks, Feeding America provides nourishment to more than 37 million low-income people each year while engaging our country in an ongoing fight to end hunger. Snickers hopes to donate as many as three-and-a-half million meals to Feeding America in 2010 through the Bar Hunger campaign*.
